I AM MASTER LOKI'S SON, THE PROUD WOLF FENRIR.
Wow, Loki-kun! Who's this? Is he yours?
Human, don't talk to my father like that!
WOW WOW WOW
This is Fenrir. He lives with me now
Fa-fenrir?
I'm Mayura
Nice to meet you, Fenrir-kun ♡
AH!
Kiss ♡
Mayura!! You shouldn't kiss animals!!
Let's be friends just like your father and I ♡
Kyun Kyun
Dogs is Loki-kun jealous?

I wonder what their difference in height is. This is my most recent work. Their stature and their body proportions are incorrect, but if I didn't make Loki small, Norikami couldn't hug him.

I'm so hungry...
Someone give me some food...
Hey
Hey isn't anyone here?

This is a mess!!
It's filled with the sweet smell of cake,
But there isn't no here.

You had cake for a snack when I was hungry??
Ugh
God, shut up Narukami-kun! *
And I was sound asleep too

Yamino-kun!! Bait!! Quick, give him something to eat!!
Loki-sama!!
These lips are looking tastier by the second
As I thought the cute boy that Haruhami-kun liked was Loki-kun ♡

Loki-kun, Narukami-kun...

Tell me what your real relationship is!!
We're siblings
No you're not. You said you weren't!

And when I asked Hamino-san about your relationship with Loki,
I felt like I'd been deceived.
Is this an indication of some kind of secret?
Gku

...I can't believe it
Narukami-kun's illegitimate child?!
What !?
Wow someone chil...?
I mean...if it were Uemino-san, I could believe it, but Narukami-kun?
Jeez why didn't you say so sooner Loki?
You're kidding, right?
Is your mother S-ki Out ? in with her?
If he denies it this will go on forever
What age is he anyway?
If I admitted it what would happen?

I couldn't draw Hemu at all, so I drew Harry Potter Hemu.

Loki and Hemu calendars and other goods are soo cute. As for a compilation book, how about Loki gets posessed by an evil spirit and becomes an obedient and good Hemu? That sounds gross, doesn't it? I'd want him to return to his former malicious cute self. What's that you say? He was originally good? What?

Why was it Naru-kami?!
He's cruel and insensitive!!

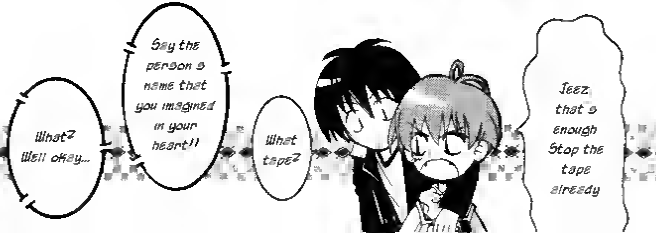
As usual it is impossible to know what Loki-san is thinking
Wrong!
Wrong! That isn't true!! Freyr doesn't think so!
Really? Oh Loki-kun!
My beauty is dangerous isn't it? ♡



What? Well okay...
Say the person's name that you imagined in your heart!!
What tape?
Jeez, that's enough Stop the tape already

Please don't be led astray by Freyr's words
Loki-sama! You're only denying your love for me on the surface, right? Are you denying your love for me?
Wrong answer!!
Yamino!
Listen to Freyr!
BETAA
I'm so happy! You imagined me from deep in your heart ♡
Wrong!!
Like extreme poverty this is out of the question!!
Okay, so I didn't get it from the beginning. How about Haruhumi!
Talk to Freyr! Loki!
BUCHI!
If we both love each other there's no problem! Let's have a baby!
That's impossible! There are limits to magic so we can't—no no I mean listen to Freyr!
Mayura is oblivious
So who does Loki really like?

I AM MASTER LOKI'S SON, THE PROUD WOLF FENRIR.

Frisbee!
Other hand.

Loki-kun, this dog is clever!!
Of course, cuz he's mine.
Older brother... you have lost authority over your own dog...
Did you notice?
hehe... Fenr. Fenrir.

Do you think your true shape is hot?
I've lost my heart to it too
Confession
Stupi...
.....
It's okay. I'm not interested.
Interested? I am I am!
But if I did it with you while you're in this shape I'd be a criminal right?
Are the likes of the real Thor and the mere high school student Haruhara competing in your heart?
Hmm I wonder how far it could go and still be okay
So you look at me like that?
Please just keep competing.

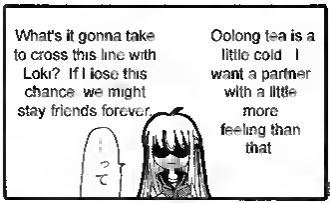
Love21
I'm gonna play and find out how much Loki-kun really loves me ♡



What's it gonna take to cross this line with Loki? If I lose this chance we might stay friends forever.
Oolong tea is a little cold I want a partner with a little more feeling than that
って

But it was pretty accurate...
It's just a stupid game of Yamino-san's
This game can't tell my true feelings
I wonder if it would be bad if I crossed the line
I wonder if it's my fault

A drink, hmm~
Here, have some oolong tea

You want to change yourself
That wish is so common. Everyone has that wish. Miyuru!
If I let myself be changed by Haruhumi, I'd want to be scolded.
CLINK
Loki! You're gonna eat too, right?
A... Ansuz
I don't believe it

This rune means that I should go with my natural reactions, I think... It does, doesn't it? ...and I kept thinking of Haruhara...
Hey Loki! If you aren't hungry, I'm gonna eat!

So how was Magic Loki book number 1? My drawings still aren't that great and because I drew them so slow, what got put into this book was whatever I had finished at the last moment. And so, I didn't draw Freyr and Freya, and Hemu or Hikari-chan at all. When this volume was out, I thought it would be over, but we're releasing a second volume! March would be impossible, but maybe May of this year. Volume 2 is already in the works, and so my will to do it is already kind of disappearing. Drawing until it's finished takes time!? I don't really have the patience and Kari-chan is hard to draw! Well, it's drawing manga without a Loki tone, so I'll be fine I guess, but Narukami was hard to draw. I'm really bad at drawing that type, though I can kind of draw Loki or Freyr I guess. Until next time, I'll try my best to work with a little diligence. As for this time, thank you very much for getting this book. I hope we will meet again.

Important events are in Nagoya and Osaka at the summer and winter conventions. In May the book is being released in Tokyo. The genre is "MoLoki." The circle name is "Logical Rondo" or "M-Frontline."

As for stocks, right now there are only a few copies of this book left. The Peace Maker book is sold out. Thank you. There are no plans for resale.

A new copy of this original, on the other hand, is being published. If you would like more information about this or other books, please send a message to the contact address on the following page.

Hi, Aiko the editor for Hemuloki here. This page was part of an insert the circle had in the doujinshi to show what else they had for sale. It was a whole lot of stuff we felt the translator didn't need to bother with, so instead we're just using it for our translation note page.

◆Translator's Note◆

The rune Ansuz is the fourth letter of the futhork and indicates several things generally related to the spoken word. Ansuz usually means that knowledge will be received or that the bearer will seek or take advice. It signals inspiration, enthusiasm, speech, and true vision among other things.

In this doujinshi, Loki thought of Norukami several times. According to the psychology game in the last story, he may subconsciously like or even love Norukami. The fact that his rune for the day was Ansuz may suggest that he has received knowledge or wisdom or that he should take the advice given to him, in this case, that of the book. It also means he may be inspired or receive a true vision.

For further information about Ansuz or other runes, I suggest looking at:
